WELCOME!

Each project is a collaboration between our clients and the talented individuals on our creative design team. We place this essential dialogue at the centre of the design process, applying our expertise and critical thinking to develop a tailored design strategy for your project. As we visualise these ideas in three dimensions, our ability to coordinate the artistic and technical aspects of architecture ensures that both quality and cost are controlled.

It has always been our intention that the practice be involved in a diverse range of projects to allow a breadth of knowledge and ideas to permeate throughout every aspect of our design process. Within this broad spectrum we have undertaken a large amount of residential work, ranging from modest domestic extensions, to heritage conversions, onwards to large speculative housing developments. We therefore understand the importance of listening carefully to our clients to bring them the best possible spaces.

We have won numerous Civic Trust and Nottinghamshire Awards, which we feel are a testament to the positive contributions we make to local communities. We hope you find the projects in this brochure interesting and if we can assist with any project that you might be considering now or in the future, please do not hesitate to give us a call.

YOUR PROJECT

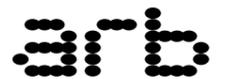

We work with our clients to deliver architecture that unlocks a project's potential. We listen closely to your requirements, responding intelligently to provide the best possible design for the end user. Good design adds value to a project and we believe in letting ideas lead the search for the best architectural result.

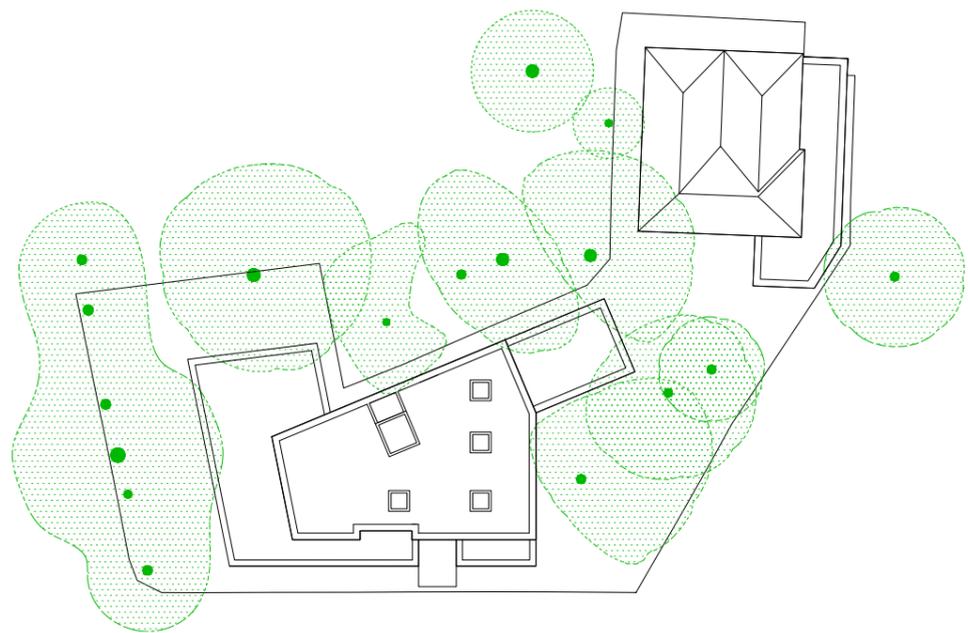

OUR DESIGN ETHOS

We are committed to architecture that prioritises people and place, working creatively to develop quality spaces. A comprehensive collective knowledge across our talented team, enables us to deliver inventive solutions to complex problems across a variety of contexts and scales.

FINCHLEY

THE LONDON PRESCHOOL

This project takes a very leafy corner plot where the architecture has been carefully composed around the many tree root protection areas. The design playfully provides outdoor space at tree canopy level with a series of roof terrace areas, whilst the building form itself steps back to reduce its impact upon the site. This project is currently under construction and is due to complete soon.

WANDSWORTH

THE LONDON PRESCHOOL

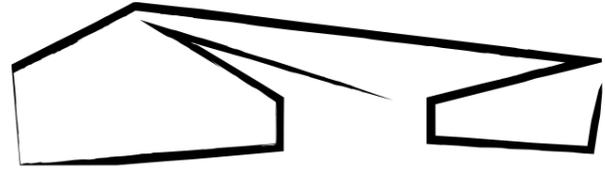

The first of several nurseries commissioned by The London Preschool to complete and open, The Wandsworth Pre School, demonstrates a commitment to quality education through a quality environment created within the constraints of an existing building. Conversion of existing commercial space can be complicated however, Rayner Davies Architects were able to deliver on The London Preschool's brief and the project was completed and opened within four months.

STANGROUND

ALPHA KINDERGARTEN

This scheme uses playful yet familiar geometry to provide interesting forms both internally and externally. Based upon the simple idea of a courtyard garden, the proposed scheme provides a protected play area by virtue of its c-shaped plan form. The timber cladding continues the playful theme using the direction of the laying pattern to textural effect.

WINCHMORE HILL

THE LONDON PRESCHOOL

The London Pre School Company selected Rayner Davies Architects to assist them in the delivery of a number of new facilities in central London. The second to complete and open was The Winchmore Hill Pre School. It demonstrates the company's ethos in physical form: a commitment to a quality education is demonstrated by a commitment to a quality environment. A former dairy, the existing buildings were converted and extended to a little over 6,000 square feet of space.
